TRSL's annual report continues its award-winning tradition

Baton Rouge – The Teachers' Retirement System of Louisiana (TRSL) recently received the *Certificate of Achievement for Excellence in Financial Reporting* for its 2009 Comprehensive Annual Financial Report (CAFR). This marks the 19th consecutive year that TRSL has received this prestigious national award.

The Government Finance Officers Association of the United States and Canada (GFOA) presents the award to state and local governments that exceed the minimum accounting requirements when preparing annual financial reports.

“We are very pleased to receive this award again,” said TRSL Director Maureen H. Westgard. “It’s recognition by experts in the areas of finance, audit, and academia that TRSL continues to produce a comprehensive report that meets the highest standards of financial transparency and openness.

The 2009 CAFR can be viewed at TRSL’s website, www.trsl.org in the publications section.
